Brief Description about you

During my service, I have been working in different environment almost independently in the field of socio-economic development/poverty alleviation, organization development at grassroots level for sustainable development of the poor. I have also exposure in organizing training/workshop/discussion session for the management and field level staff of different NGOs and also grassroots people thus gained long experience in GO-NGO partnership in development.

I have the long experience in the field of training and also have expertise to work with training based organizations. While I was with SMATA, most of time I have to develop training manual, conducted training and also have to take steps to develop a training cell along with training

needs assessment of the staff. Have the experiences to work with others training institute based organization, like Communica, PRIPTRUST and SAP-Bangladesh.

On the other hand while I was receiving raining from home and abroad I have the keen observance about the institute and management systems. I was visited so may training institutions in Bangladesh, like BRAC, PROSHIKA, BCDM, TRAD and others in Bangladesh, in broad like Coady International Training Institute, Canada, BALAVISKA, India and SAP-Nepal.

It is noted that during my I had have been doing job in the sector of capacity building in different type of organizations including government.
